After Your Surgery

ClariFix Cryotherapy

CAPITAL ENT & SINUS CENTER

What to Expect

- Some bleeding from the nose for the first few days is expected. It is usually mild.
- Nasal pain and congestion are normal. You will likely feel more congested than you did before because of swelling from the procedure.
- You may have crusting and dried blood in your nose.
- Some patients have a headache after the procedure. This should resolve within a few hours.
- It typically takes 2 to 6 weeks to fully heal and notice the reduction in nasal symptoms.

What to Do

- Use nasal saline spray, 2 sprays in each nostril every 2 to 3 hours while awake (5 or 6 times a day), until your follow-up visit.
- You may use Afrin nasal spray as needed for bleeding and nasal congestion for 3 to 5 days after the procedure. Stop Afrin after 3 to 5 days.
- For the first 3 nights, sleep with your head and shoulders raised 30 to 45 degrees (wedge, pillows or recliner).
- Tape a piece of gauze under your nose if there is mild bleeding. Change the gauze as needed.
- Tylenol 1,000 mg every 6 hours (max 4,000 mg a day; 3,000 mg if the package says so or with liver disease) and ibuprofen 400 mg every 8 hours with food, unless we said not to or you have an ulcer or kidney disease.

What Not to Do

- Avoid heavy lifting (over about 10 lb), strenuous exercise (anything that makes you breathe hard, strain or sweat), or anything tiring for 1 week after the procedure.
- Do not blow your nose for the first week. Do not sneeze with your mouth closed.
- We recommend that you do not fly for 1 week after the procedure.

When to Call or See the Doctor

- Temperature of 101° F+ for over 24 hours or starting 3+ days after the procedure, or 102° F+ at any time (check before the next Tylenol or ibuprofen dose).
- Bleeding from the nose that does not stop, or any bleeding that worries you: call us for guidance. Severe bleeding you cannot control, or bleeding with lightheadedness or fainting: call 911 or go to the nearest emergency room.
- Persistent, severe headache.

Questions or concerns? Call the office that scheduled your surgery. After hours, call our main number, 512-339-4040, to reach the on-call physician. For a life-threatening emergency, call 911.
